I. BACKGROUND AND NEED

Section 442 of the District of Columbia Home Rule Act, approved December 24, 1973 (87 Stat. 798; D.C. Official Code § 1-204.42), requires the Mayor to prepare and submit to the Council an annual budget for the District. Bill 20-749, the Fiscal Year 2015 Budget Request Act

of 2014, as approved by the Committee of the Whole, and subsequently passed by the Council, establishes the budget for Fiscal Year 2015 (“FY 2015”).¹

On December 17, 2013, the Council adopted Resolution 20-367, the Fiscal Year 2015 Budget Submission Requirements Resolution of 2013. The resolution established April 3, 2014 as the date by when the Mayor was required to transmit to the Council his proposed Fiscal Year 2015 budget. Together with Bill 20-749, the Mayor also transmitted supporting legislation in the form of Bill 20-750, the Fiscal Year 2015 Budget Support Act of 2014.

The Fiscal Year 2015 proposed budget and financial plan the Mayor sent to the Council would make important investments in affordable housing, workforce development, public schools, and infrastructure. Without this strong foundation and the cooperation and support of both the Mayor and the Chief Financial Officer, the Council would have been unable to make the changes listed below.

Financing and Other

The District of Columbia is a dynamic and rapidly growing city - one that looks very different than it did 20 years ago. As such, the Council felt it was important to take a fresh look at the District’s tax code and determine ways to make it more progressive, broad, and fair to District residents and businesses. Therefore, in 2011, the Council reestablished the **Tax Revision Commission** (“Commission”), ably headed by former Mayor Anthony Williams. Through a series of meetings during 2013, the Commission identified challenges that the District’s tax system placed on residents and businesses. Specifically, the Commission found that low and middle income residents pay a disproportionately higher share of their income in District taxes. Additionally the Commission found that the District’s business income taxes are the highest in the region and among the highest in the nation. The tax relief recommended by the Commission² addresses each of these disparities by adjusting the personal income tax, the estate tax, business taxes, and sales taxes.

As shown in the table below, the Council’s plan phases in the recommendations of the Tax Revision Commission over five years, with all of the tax relief fully funded and implemented by Tax Year 2019. The Council’s implementation plan funds the majority of the Commission’s proposals, with special focus on providing immediate relief for low and moderate income District residents. Full implementation of the entire plan is estimated to cost \$168 million per year, of which \$235 million are tax reductions and \$67 million are offsetting revenue increases.

¹ Pursuant to court order, affirmative approval by the Congress is also required. See *Council v. Gray*, Civ. Action No. 14-655 (D.D.C. May 19, 2014).

As evident in the table below, the Council’s plan adds considerable progressivity to the District’s individual income tax structure and reduces the effective tax rate averaged among all District-resident taxpayers from 4.9% to 4.5%. To provide considerable tax relief to lower and moderate income District workers, this plan expands the Earned Income Tax Credit (“EITC”) for single workers, increases the personal deduction and personal exemption to federal levels and adds a new middle income tax bracket. As a direct result of these changes, residents earning between \$25,000 and \$50,000 will have an effective tax rate of 1.8%, and residents earning between \$50,000 and \$75,000 will have an effective rate of 3.5%. The expansion of the EITC to single workers will provide residents earning less than \$25,000 with an even larger tax rebate, and **all residents earning less than \$200,000 will have an effective tax rate of less than 5%.**

In order to help District businesses compete and thrive in a region with porous borders, the Commission recommended, and the Council is implementing, a reduction of the Incorporated and Unincorporated Business Franchise Tax to 8.25%, the same rate as Maryland’s and competitive with Virginia’s 6% rate. The rate will be reduced in phases, and will reach 8.25% by Tax Year 2019.

The Tax Revision Commission recommended that the exemption from the estate tax be increased to the federal level (from \$1 million to approximately \$5.25 million). There is anecdotal evidence that the District's low exemption leads wealthy individuals to move or change their domicile as part of their tax planning. Recently, Maryland raised its exemption, and the District is now an outlier. The Council's proposal doubles the exemption in 2016 and obtains federal conformity in Tax Year 2018.

At the recommendation of the Tax Revision Commission, the Council chose to offset some of the tax reductions with taxation that broadened the District's tax base. While we ultimately rejected raising the sales tax back to 6%, and instituting a \$100 "head tax" on every person who works in the city, the Council did subject five services to the general sales tax.

For example, applying the District's general sales tax rate of 5.75% - the lowest in the region - to a \$75-per-month gym membership would cost an additional \$4.31 per month. Annually, the taxes on that membership would cost \$51.75. But that expansion of the sales tax is more than offset by the reductions we were able to make to other taxes. Thus, over that same twelve month period, a person earning between \$25,000 and \$50,000 would see an individual income tax reduction of \$436 - 8 times greater than the increased cost in the gym membership. A District resident earning between \$50,000 and \$75,000 would, on average, see an individual income tax reduction 12 times greater than the increase in gym membership costs, and residents earning between \$75,000 and \$100,000 would see individual income tax reductions 14 times greater than the tax on the gym membership.

Similarly, all businesses in the District will be enjoying lower taxes, as the Council voted to reduce business taxes by **17%** from 9.975% to 8.25%. A business with DC taxable income of \$250,000 per year would enjoy annual tax savings of \$4,313 while a larger business with DC taxable income of \$1,000,000 would receive tax savings of \$17,250.

Below is a more detailed summary of the tax relief that is provided in the Council's plan to implement the recommendations of the Commission.

The following tax changes will become effective January 1, 2015:

Individual Income Taxes

1. Further reducing³ the rate on the new individual income tax middle bracket of \$40,000 - \$60,000 to 7.0%
2. Expand the local EITC to single workers
3. Raise the standard deduction to \$5,200 for singles, \$8,350 for married residents
4. Eliminate certain tax expenditures⁴
5. Phase out the personal exemption by 2% for each \$2,500 above \$150,000, with a complete phase out at \$275,000

³ The Mayor's proposed FY 2015 Budget and Financial Plan created the new individual income tax bracket at a rate of 7.5%. The Council's plan further reduces that bracket to 7.0% in 2015.

⁴ The Commission recommended eliminating the DC Homebuyer Credit, the Low Income Credit, the Long Term Care Insurance Credit and the Government Pension Exclusion.

7. Broaden the general sales tax to certain services⁵
8. Unify taxation on tobacco products⁶

Business Taxes⁷

In addition to the tax relief granted in 2015 and 2016, the following tax relief will be effective January 1, 2017:

Individual Income Taxes

1. Further raise the standard deduction to \$6,100 for single residents and \$12,200 for married residents to conform to the federal level
2. Increase the personal exemption to \$2,200

Individual Income Taxes

1. Further increase the personal exemption to \$3,200

Business Taxes

2. Further reduce the Unincorporated and Incorporated Business Franchise Tax from 9.0% to 8.75%

⁵ The Commission recommended expanding the sales tax to water consumption for home, storage of household goods/mini storage, carpet and upholstery cleaning, health clubs and tanning studios, car washes, and bowling alleys and billiard parlors. Two other types of services were also recommended, but are not in the Council's plan.

⁶ The Council is adopting this proposal, which was initially recommended in the Mayor's proposed FY 2015 Budget and Financial Plan.

Estate Tax

3. Further raise threshold from \$2M to \$5.25M to conform to the federal level

In addition to the tax relief granted in 2015, 2016, 2017 and 2018, the following tax relief will be effective January 1, 2019:

Individual Income Taxes

1. Increase the personal exemption to \$4,200 to conform to the federal level

Business Taxes

2. Further reduce the Unincorporated and Incorporated Business Franchise Tax from 8.75% to 8.25%

The recommendations of the Tax Revision Commission are not the only tax relief being funded in the Council's FY 2015 budget. The Council is modifying the relief provided by the Senior Citizen Real Property Tax Relief Act of 2013 to instead provide relief for low-income seniors regardless of whether they own or rent their homes. As such, the Council is expanding the income tax credit ("**Schedule H**") related to the real property tax or low-income renters and homeowners over the age of 70 who have an adjusted gross income of less than \$60,000 per year. The Schedule H provides a tax credit for both homeowners and renters, whose property taxes exceed a certain percentage of their income. The Council is also providing for interest-free **deferral of real property taxes** for older, low-income District residents. In doing so, the Council fulfills the policy (previously unfunded) whereby low-income seniors can remain in their homes without a great property tax burden. The deferral is interest-free and most probably will be eclipsed by annual appreciation in the value of the house. With these changes, thousands of low-income seniors across the District will see immediate and impactful tax relief. Combined with the income tax cuts in this budget, the relief should be substantial.

In order to improve budget transparency, the Council is adding to the BRA a request that Congress enact into law the **Contingency Cash Reserve Transparency Amendment Act of 2008**. This legislation, which was introduced by then-Chairman Gray and unanimously passed by the Council, would impose more meaningful guiderails on the use of the Contingency Cash Reserve Fund ("Contingency Fund"). The Contingency Fund is one of two funds established in the Home Rule Act to provide reserves for urgent, unexpected funding needs, such as those that might follow natural disasters or terrorist attacks. In FY 2014, the District made good use of the Contingency Fund to keep the government running while federal gridlock resulted in a lapse of other appropriations.

However, the Contingency Fund has increasingly been tapped by the Executive to fund expenditures that do not appear to meet the spirit of the law. The Home Rule Act states that the Contingency Fund may be used only for "nonrecurring or unforeseen" needs, and the CFO must certify "the impact of the proposed allocation on the balance and integrity" of the fund. Yet, in recent years, the fund has been used to pay for a broad range of expenses, such as providing new Supercans to all residents, funeral subsidies, painting privately-owned taxicabs, hiring of additional FTEs, promotion of existing FTEs, feasibility studies, and procurement reform. Although any one of these expenditures may represent prudent policy, the District's policymaking body – the Council – is deprived of any opportunity to approve or disapprove such

initiatives. Under the Home Rule Act, it is the Council's responsibility to ensure, after the fact, that the fund is replenished within two years of the expenditures. In effect, the Mayor is able to write checks that the Council must repay – without having agreed in the first place – either out of future revenue growth or by cutting some other expenditures.

Thus, there exists a structural flaw regarding the Contingency Fund, wherein the Mayor may spend funds for any “nonrecurring or unforeseen” uses, to be repaid out of a future budget, and without any legislative check on the expense. Unlike reprogrammings, there is no Council review required before funds may be spent from the Contingency Fund. Recognizing these flaws, then-Chairman Gray, in 2008, crafted legislation to restrict the use of the Fund to needs which are “nonrecurring and unforeseen.” The act also provides for a Council review period for any proposed expenditures, preserving the legislature's power of the purse. But, because the act would require an amendment to the Home Rule Act to become law, it is subject to enactment by Congress. The Council's position has not changed since the act was passed. Congress should enact the Contingency Cash Reserve Transparency Amendment Act of 2008 pursuant to the fundamental principles of separation of powers and in the interest of transparent budgeting.

In FY 2016, the District is scheduled to implement a paygo provision whereby each year, 25% of the increase in the District's revenues over FY 2015 levels will be dedicated to support construction of the new streetcar system. The **Capital Policy and Reserve Account Amendment Act of 2014** will instead implement this provision starting in FY 2017. The Act also modifies the proposed calculation so that 25% of the increase in the District's revenues over the previous year, rather than a locked-in baseline of FY 2015, is dedicated to support construction of the new streetcar system.

While the Council agrees with the importance of employing paygo to decrease the District's reliance on borrowed capital, it must be sustainable and not foreclose future growth. Without this proposed change, by 2019 the operating funds set aside through the automatic paygo provision would roughly equal the District's annual revenue growth, and by 2023 the paygo transfer to streetcars would almost double the District's annual revenue growth. Over the next ten years, this provision would have set aside \$3 billion for the construction of streetcars. This is not sustainable, nor is it the best use of District resources.

The Council, while supportive of the Streetcar initiative, remains concerned about the amount of funding being diverted from the operating budget to pay for the system. Setting aside such a large portion of operating funds prevents implementation of other worthy programs and initiatives. The Council proposes to maintain the planned 6-year, \$400 million investment in the streetcar project, and dedicate \$45 - \$65 million of operating funds to the project annually. This amount of funding is consistent with annual budget allotments that the project has received over the past 7 years and exceeds what DDOT has been able to spend.

The **Capital Policy and Reserve Account Amendment Act of 2014** also requires the CFO to prepare a 15-year capital replacement schedule that defines the major assets and repairs that need to be done during the next 15 years, when those major renovations and replacements need to occur, and how much they will cost. This subtitle also requires that any unspent debt

service be used as paygo to offset future capital borrowing. It is hoped that these reforms will bring discipline to the District's capital budget: identifying the greatest needs, enabling better prioritization, and minimizing the ad hoc element to what gets funded.

To account for, and dedicate, certain potential revenues that may be received in fiscal year 2014 or 2015, the Council is establishing a non-lapsing IPW⁸ Fund to support Destination DC with planning and hosting the U.S. Tourism Association's annual international tourism conference. Of the amount received from a settlement with online travel companies to recover unpaid hotel-room taxes, \$5 million will be deposited into the IPW Fund, provided that the private sector will match this amount. The remainder of any funds received from the settlement shall be deposited in a new WMATA Momentum Support Fund.

Finally, the Council is backing a number of real property tax abatements to support affordable housing and non-profit institutions in the District by funding the following legislation: **United House of Prayer Equitable Tax Relief Act**, the **Meridian International Center Real Property Tax Exemption Act**, the **Scottish Rite Temple Real Property Tax Act**, the **American Academy of Achievement Real Property Tax Exemption Act**, and all real property tax abatements and refunds that were originally proposed in the Mayor's budget.

Human Support

The Council believes strongly in funding important and effective programs that address basic human needs. Thus, the Council is addressing key threats to the well-being of District residents, including the ongoing family homelessness and affordable housing crises, the crippling effect of chronic diseases, and the health and mental needs of District youth.

In the area of Human Services, the Council is investing significant resources in programs proven effective in responding to both individual and family homelessness. In the FY 2014 budget, the Council piloted the successful **Rapid Re-Housing Program** for homeless individuals. With the success shown to date, the Council is adding \$1.5 million in FY 2015 to continue and expand this pilot program.

To provide immediate assistance for homeless individuals, the Council is fully funding a **coordinated entry system** to reduce bureaucracy and better match housing and services to that population. To further address the needs of homeless individuals, the Council is approving funding to conduct a feasibility study on the population of the District's largest individual homeless shelter – the Center for Creative Non-Violence ("CCNV"). This study will help the District understand what resources are needed to fix conditions at the shelter, and where those resources must be targeted to best assist these individuals.

During the most recent hypothermia season, the District saw a tremendous uptick in the number of homeless families seeking shelter. As such, the Council is adding \$5.3 million in permanent housing support for homeless families. To assist these families in finding stable

⁸ "IPW" is the initial used for the U.S. Travel Association's International Pow Wow conference.

housing and getting the services they need to emerge from their homelessness, the Council identified \$2.3 million to expand the **Permanent Supportive Housing Program** at the **Department of Human Services** (“DHS”). These additional funds will ensure that those homeless families most in need find the housing and services necessary to prevent future homelessness. The Council also added \$3 million to the tenant-based **Local Rent Supplement Program** (“LRSP”), specifically for homeless families and those at risk of becoming homeless. LRSP is an effective housing program that assists very low-income families who may not need the intensive services of the Permanent Supportive Housing program, but still need affordable housing. Through rental subsidies, this program allows families to find, or maintain, stable housing in order to emerge from, or prevent future homelessness.

Currently, adults who are homeless or at risk of becoming homeless face significant hurdles in obtaining Social Security Income (“SSI”) and Social Security Disability Insurance (“SSDI”), even though they may be eligible. The application process for SSI/SSDI is complicated and difficult to navigate, resulting in fewer than 15% of qualified homeless individual obtaining benefits from their initial application. To assist these individuals, the Council identified \$500,000 to fund an **SSI/SSDI Outreach, Access, and Recovery** (“SOAR”) program. SOAR is a national project that has proven successful at assisting high-risk individuals in obtaining SSI/SSDI benefits they are eligible for more quickly. In fact, in Tennessee, 96% of applicants supported by the SOAR program successfully obtained SSI/SSDI benefits in an average of two months. The Council expects that, with SOAR, the application acceptance rate will increase significantly and thus lower long-term IDA costs.

As increasing numbers of homeless families presented for shelter this past winter, an alarming number, close to 50%, were headed by people under the age of 24. Youth-headed households, along with young homeless individuals, face additional barriers to emerge from homelessness. The Council therefore is funding several key provisions of the **End Youth Homelessness Act of 2014**. With the addition of \$1.3 million at the DHS, the Council is funding 10 transitional beds and 5 emergency shelter beds for youth aged 24 and younger. The \$1.3 million also supports a youth intake center to ensure coordination between housing and service needs. The enhancement will also allow for completion of a youth census as well as street outreach in order to identify and assist vulnerable youth.

Data show that sheltering homeless households costs the city \$150 per night. While investments in emergency shelter are critical, the District must also invest in methods that prevent households from entering the shelter system in the first place. By investing in efforts to prevent homelessness, the District not only keeps people in their homes, but can reinvest some shelter resources into services for households most in need. Therefore, the Council is using \$2 million to fund the **Homeless Prevention Program Establishment Act of 2014** to implement prevention efforts that have proven successful in other jurisdictions. For example, New York City currently runs a prevention program called Homebase. These targeted prevention efforts, administered from locations throughout the city, provide at-risk households with services such as family or tenant mediation, household budgeting, emergency rental assistance, job training and placement, and advocacy for public benefits like public health insurance, tax credits, and SNAP.

A recent, 27-month study of the program tracked 295 families, half of whom received services from Homebase, and half who did not. The result: Homebase was able to cut the number of households in the study who applied for shelter by half (18.2% applying for shelter in the control group compared to 9.3% who interacted with Homebase). According to the Helping Families Home Roadmap, an Interagency Council on Homelessness subcommittee has met twice to discuss program design, which should be completed by August 1st. With the funding identified by the Council, the District can begin to address the underlying cause of homelessness and avoid the consequences of entering the shelter system.

In another action to prevent District residents from becoming homeless, the Council is increasing funding by \$500,000 to the **Emergency Rental Assistance Program** (“ERAP”). This program provides critical, short-term assistance to individuals and households at risk of becoming homeless by giving them the opportunity to address immediate problems without the additional concern of losing their home.

Although the Council invested significant resources in connecting homeless families with housing and the prevention of homelessness, the District must always maintain a safe and effective emergency shelter system. Currently, conditions at the **DC General Family Shelter** require significant improvements to both improve the quality of life and assist families in moving out of the shelter system. To assist the families at DC General, and more quickly move them into affordable and stable housing, the Council added \$600,000 to hire 10 **Family Case Managers specifically for the DC General** population. With intensive, direct social worker and case management at DC General, the District can more quickly assess families, identify the services they need, and enroll them in the most appropriate and effective programs.

One of those programs is related to the **Temporary Assistance for Needy Families** (“TANF”) Amendment Act, passed by the Council in 2011. Under federal rules, households may only receive TANF benefits for a maximum of 60 months. However, the District continually provided benefits to recipients beyond the 60-month time period through locally funded resources. To help incentivize these long term TANF recipients to find full and steady employment, the Council and the Mayor agreed to begin a gradual step-down of these benefits. Recognizing that certain households face unique circumstances that merit remaining on TANF, the Council passed exemptions to the time limit during the FY 2014 budget. The Council also increased eligibility for the POWER program to provide temporary relief from TANF work requirements for households facing short term difficulties. By enrolling in POWER, households continue to receive benefits and also have the clock stopped on their 60 month count. For FY 2015, the Council is directing funding to provide additional **POWER eligibility – to mothers with children under six months of age**. By ensuring new mothers continue receiving their full TANF benefits, the Council is assisting families on the path to self-sufficiency.

In addition to the financial assistance provided by TANF, the District also administers the federal **Supplemental Nutrition Assistance Program** (“SNAP”). SNAP provides low-income residents assistance with purchasing groceries. However, thousands of residents, including many seniors, receive less than \$30 per month in benefits. To increase food security for District residents, the Council identified \$1.3 million to create a locally funded SNAP enhancement.

With this funding, any resident receiving SNAP benefits of less than \$30 per month will receive additional assistance to bring his or her total benefit to \$30.

The Council also remains committed to meeting the public health needs of all District residents. This includes tackling the devastating impact of chronic diseases like cancer and diabetes. To achieve this goal, the Council identified \$717,000 in the **Department of Health** (“DOH”) for enhancements to programs that combat the impact of chronic disease. As a result of this funding, DOH can expand its efforts to reduce the incidence of people living with a variety of diseases through additional screenings, educational campaigns, and public health services. The Council also remains committed to providing residents with the tools and resources needed to address their tobacco addiction. Tobacco consumption, and the resulting health impacts, continues to affect thousands of residents across the District. Therefore, the Council added \$2 million in funding for the **Tobacco Control** program within DOH. These additional resources will support ongoing and successful tobacco cessation efforts including the Tobacco Quitline, education campaigns, and community outreach.

The Not-for-Profit Hospital Corporation, commonly referred to as **United Medical Center** (“UMC”), is the only acute care hospital east of the Anacostia River. The hospital also houses a skilled nursing facility and a state-of-the art Pediatric Emergency Room run in partnership with Children’s National Medical Center. Since taking control of the operations of the hospital in 2010, the District has invested millions of dollars to improve operations and services. Although progress has been made, the District remains committed to moving control of the hospital to a private partner. Therefore, last year the Council supported the Mayor’s \$12.7 million contract with Huron Consulting Group to develop and implement a turnaround plan for UMC. Huron formalized a strategic plan that won UMC Board approval last August. In addition to patient, doctor, and service related changes, the plan calls for significant capital improvements.

In achieving these capital improvement goals, Huron states that “UMC facilities are in relatively good condition” and that “investments to make the facilities competitive without other District providers could differentiate UMC and attract PSA [Primary Service Area] residents.” Although the plan discusses building a new facility, it specifically details capital improvements at the current UMC hospital for facilities, equipment, and information technology, as well as routine and deferred maintenance over the next four to five years at a cost of \$155 million – well below a roughly estimated \$335 million cost of a new facility. Importantly, the strategic vision makes it clear that “prompt District action [is required] to make UMC attractive to a partner” but **“the District should defer substantial strategic facility and equipment investment prior to securing a partner.”**

Additionally, in testimony given during their budget oversight hearings, the Department of Health Care Finance and UMC provided inconsistent answers regarding the use of the \$335 million in capital funds for a new hospital facility. According to UMC, none of the capital money allocated for FY 2014 had been spent and that District officials alone came up with the estimated amount for constructing a new hospital.

Given the advice provided by Huron to achieve strategic goals through \$155 million of capital improvements at the current UMC facility, the Council disagrees with the Mayor's proposal to spend over \$300 million on a new hospital facility. With no strategic partner identified, inconsistent responses on the actual cost of building a new facility, and an unknown financing scheme (e.g., public-private partnership), the Council believes it is unwise to commit \$335 million at this time for a new hospital. The Council remains committed to providing the best and most extensive medical services available, especially on the East side. That is why **the Council is following the advice of the hired turnaround consultants, and fully funding the \$155 million in capital investments necessary to improve the current UMC facility, attract an operating partner, rebrand UMC, encourage more residents to utilize the facility's services, and improve patient services.**

In addition to the health needs of the District writ large, the Council is committed to addressing the growing physical and mental health issues facing our youth. In 2012, the Council unanimously passed the "South Capitol Street Memorial Amendment Act" to specifically address the growing mental health needs of District youth. A key component of this legislation centers on the expansion of the **School-Based Mental Health Program** which provides direct programs and services to kids where they spend most of their time – at school. Each year, the Council has identified additional funding to continue the expansion of this vital program. This year, the Council is funding an additional six social workers, on top of the funding for the 23 new staff for the program identified by the Council for FY 2014.

Students face unique social issues as well. Although teen pregnancy is on the decline, it has a lasting impact on young women and their children. Through both public and private funding, a number of critical and successful programs currently assist teens in preventing pregnancy. However, much of the private money dedicated to these efforts has been declining. The Council believes that more work is needed despite the success achieved in recent years in reducing the rate of teen pregnancy. Therefore, the Council is providing \$2 million for a **teen pregnancy prevention fund** for the continuation of successful programs.

There also continues to be a rise in the rates of concussions and traumatic brain injury among kids both locally and nationally. Children, whose brains are developing, risk permanent damage when they suffer a concussion. However, hospitals which treat children in the District do not currently implement best practices for diagnosing concussions. The **Health Information Technology Solutions ("H.I.T.S.") for Kids** is a national model for concussion care. The Council identified \$480,000 for a competitive grant to develop H.I.T.S. for Kids here in the District. Through the development of a comprehensive concussion care protocol, the District can ensure that children who may have a concussion receive the appropriate care necessary to make a full recovery.

While youth comprise a special population in need of focused services, the Council also believes in improving the quality of life and government responsiveness of the District's older residents. Over the past several years, the Council has made significant investments at the **Office on Aging ("DCOA")** in order to provide the best, and most extensive, set of services to District seniors. This year, the Council is increasing the budget for DCOA by \$1.25 million. These

additional funds will ensure that seniors have access to a well-functioning transportation system. In addition, these funds allow DCOA to provide critical enhancements for grants given to the multitude of outstanding providers throughout the city.

The Council is committed to investment in our parks and recreation centers to provide children, families, and seniors access to active recreation opportunities. As a demonstration of that commitment, the Council is increasing **Department of Parks and Recreation** (“DPR”) capital spending by \$25.675 million in FY 2015 and \$43.775 million for the next 6 years. Among the projects funded is a **Community/Recreation Center in Ivy City**, which will be located in the Crummell School. The District’s only **Therapeutic Recreation Center**, which serves people with disabilities and is located in the Greenway neighborhood, will be modernized. The facility has not received an extensive renovation since it was built in 1971. The **Chevy Chase** and **Fort Davis Recreation Centers** will also be modernized. **Hearst Park** will be improved and an outdoor pool will be built in Ward 3. An additional \$14.5 million was added to the Department of Transportation budget to transform the old unused span of the **11th Street Bridge** into a signature, elevated park for the District—a park comparable to the High Line in New York City. Spanning the Anacostia River, the park would link Historic Anacostia with the Navy Yard. Preliminary plans include bike and pedestrian trails, outdoor performance spaces, play areas, gardens, information about the river and its ecosystem, and a dock to launch boats and kayaks. And \$10 million is added to the Capital Improvements Plan to deck over the Dupont Circle underpass north toward R Street to create a small urban park.

In an effort to provide extra enrichment for economically disadvantaged children and encourage both the use of green spaces in the District, the Council has added \$250,000 to fund a grant to update **Kenilworth Parkside Community Park** and \$75,000 to support the **Summer Food Services** program for low-income children participating in summer programming provided by DPR. To support the personnel needs of DPR’s Therapeutic Recreation Center, Small Parks, and Community Gardens programs, the Council shifted eight vacant recreation specialist positions from other recreation programs in DPR.

Public Education

For Fiscal Year 2015, the Council continues its unwavering support to improve public education for all District children. The Council strongly believes that adequate funding for public education is imperative to improving social outcomes for youth across the city. Only with an effective and comprehensive public education system can we provide all youth with an equal opportunity to succeed.

In an effort to provide this adequate funding, the Council unanimously approved, and the Mayor signed, the Fair Student Funding and School Based Budgeting Act of 2013. School budgets are based on the Uniform per Student Funding Formula (UPSFF), which determines the annual operating budget for both traditional and charter public schools by starting with a base level funding per student, and adding weights based on characteristics of the school’s student population (grade level, special education, adult learners, etc.). However, the Council concluded

that the UPSFF weights failed to provide sufficient funding for students at particular risk for academic failure. Therefore, the Fair Student Funding and School Based Budgeting Act added a weight to the UPSFF for at-risk students. At-risk students include those who are homeless, in the foster care system, qualified for TANF, qualified for SNAP, or are high school students one-year older than the expected age for the grade in which they are enrolled. The goal of this addition was to ensure that schools with at-risk students had the funding needed to provide critical supports and services for these students.

In formulating the FY 2015 budget for both **District of Columbia Public Schools** (“DCPS”) and **DC Public Charter Schools** (“DCPCS”), the Mayor included a version of the at-risk weight that resulted in \$77 million of additional funding for 37,000 students at DCPS and DCPCS. However, the Mayor simultaneously eliminated the weight for summer school, causing a decrease of \$35.5 million (even though it is not expected that summer school will be eliminated next year). As a result, the public education system saw an overall increase of only \$42 million to meet the needs of the identified “at-risk” students. Moreover, the Fair Student Funding and School Based Budgeting Act requires this “at-risk” funding to follow the student, meaning that any additional funds were to go directly to the schools where these students enrolled. Instead, DCPS chose to use some of its at-risk funds to support a number of initiatives that assist at-risk students generally, while other funds were diverted to different priorities. While these priorities are worthwhile, the Council intended these funds to go to the schools so they could be used directly to benefit those students identified as at-risk.

Therefore, the Council, in consultation with DCPS and the **Office of the State Superintendent for Education** (“OSSE”) identified the projected number of at-risk students enrolled at each school. Through savings identified throughout DCPS, the Council is able to restore \$3.6 million to the budgets of 35 schools. These 35 schools received less than half their allotted at-risk funding as a result of DCPS’s allocation of the at-risk funding. Additionally, the Council provides \$1.4 million to those charter schools that lost significant funding for their successful summer school programs because of the elimination of this weight.

Another way the District reaches vulnerable youth is through implementation of the federal McKinney-Vento Homeless Assistance Act. Under this law, state education agencies must ensure that each homeless youth has access to the same free public school and public pre-school education as youth with a home. In order to meet the critical goals of the legislation, the Council added \$200,000 and two FTEs to support the McKinney-Venter Coordinator at OSSE. Increased funding allows for additional outreach and interventions for homeless youth in the public education system.

In the area of early childhood education, the Council continues to enthusiastically endorse the Mayor’s efforts to provide quality, universal education to young children. During FY 2014, OSSE increased the child care subsidy provider rate by 15% and created 200 additional child care slots. The Council, in support of this initiative, found the \$2.3 million required to fully fund the existing, and 200 additional, slots that OSSE created last year.

To promote improvements in lifetime academic achievement and health, the Council is adding another \$3.3 million to OSSE for the implementation of the **Healthy Tots Act of 2014**. More than a fifth of all children in the United States under the age of five are overweight or obese, and the figures in the District – which has one of the highest rates of child obesity in the nation – are believed to be even worse. The personal and societal costs associated with this situation are significant. To combat overweight and obesity in the District’s toddlers, the Healthy Tots Act establishes nutritional standards for qualifying preschools and assists them in qualifying for meals that can be reimbursed by the federal government.

Adult learners are an important part of the District’s public education population. Often, these students face additional barriers to academic success, including undiagnosed learning disabilities. Therefore, the Council is providing \$340,000 for OSSE to conduct **learning disability assessments and diagnoses for adult learners**. By identifying potential barriers, the District can better meet the needs of these adult learners and provide them the skills and services necessary to achieve academic success.

The Council believes that providing comprehensive, coordinated services and programs increases student outcomes by lowering the barriers that prevent academic success. To achieve this goal, the Council approved the Community Schools Incentive Act of 2012. The goal of the Community Schools program is to integrate academics, health and social services, youth and community development, and community engagement. The Council provided \$1 million in funding in FY 2014 in support of Community Schools program. Although the Mayor did not provide funding in Fiscal Year 2015, the Council is directing \$1 million to continue the success of this vital program.

To continue the ongoing work of modernizing and renovating schools throughout the District, the Council amends the Mayor’s proposed Capital Improvement Plan to align capital funding with those schools most in need. For Fiscal Year 2015, the Council provided additional funding at **Goding Elementary School** (School-Within-a-School), **Logan Elementary School**, **Marie Reed Elementary School**, **Murch Elementary School**, **Orr Elementary School**, and **Watkins Elementary School**. In an ongoing effort to improve educational outcomes at the middle school level, the Council also provides planning funds for an application middle school in Ward 7. Finally, the Council provides additional capital funding in FY 2016 for the modernization of **Eliot-Hine Junior High School**.

The Council continues its support for the only public college in the District, the **University of the District of Columbia** (“UDC”). Through the academic programs at the University’s flagship campus, the nationally recognized clinical program at the David A. Clarke School of Law, and job training programs at the Community College, UDC continues to provide the higher education and workforce training needs of District residents. For FY 2015, the Council increased the District’s subsidy to the University by \$1.475 million for enhancements to the university’s Banner financial system, investments in communications and marketing including community outreach, donor recognition programs and training, and support for regional and specialized accreditation including engineering lab equipment and computer software licenses. Those funds were identified as a priority in helping UDC achieve

reaccreditation next year. The Council is also providing \$1 million in matching funds for the University to assist with its needs.

Public Works

The Council's modifications to the Mayor's proposed budget for the Public Works cluster show the legislature's continued efforts to invest in viable infrastructure and environmental preservation that encourages and supports the District's long-term economic and population growth. For FY 2015, this is achieved by the Council's careful realignment of resources to find cost efficiency savings, while sustaining key transportation and environmental initiatives pivotal to the District's future. The budget realignments made by the Council look not only to preserve, but to bolster the District as an attractive and progressive urban center that accommodates both visitors and residents alike.

The Council was able to identify \$7.7 million in non-personal cost savings, primarily from **District Department of Transportation** ("DDOT") and **Department of Public Works** ("DPW"), to fund various Council priorities. Overall, DDOT was reduced by \$2.4 million, with 96 percent of that reduction (\$2.3 million) from contracting and energy-efficiency savings. DPW was decreased by \$3.5 million, which included \$2 million that would have been used for the 5-year Supercan replacement process. Since the Mayor completed the full Supercan replacement process in FY 2014 using the Contingency Cash Reserve Fund, DPW no longer needs to operate that process for FY 2015 and beyond, making available those funds for other imperative uses.

Additionally, the Council converted the 4-year \$5.2 million Ward 8 Streetscape project, which the Mayor's proposed budget had designated under the FY 2015 operating budget, and moved it to the Capital Budget where similar projects have previously been housed. This realignment freed up \$1.3 million in FY 2015 operating funds to be reallocated among various Council priorities. The sum of all funding reallocations pulled from cost savings across the cluster allowed for the Council to act on transportation, environmental, and public works initiatives crucial to the District.

Transportation initiatives represent more than half of the Council's budget reallocations within this cluster, at \$3.3 million. To mitigate issues of coordination, functionality, and integration regarding the pending **Transportation Reorganization Act**, the Council is setting aside \$500,000 to develop a transition plan on how best to align DDOT, DPW, the **Department of Motor Vehicles** ("DMV") and the **District of Columbia Taxicab Commission** ("DCTC").

Moreover, the Council is funding implementation of the **Traffic Adjudication Act** to be administered by the DMV in an effort to provide a fairer and more customer-friendly ticket adjudication process. This funding comprises \$559,000 to add five hearing examiner positions and a DMV Ombudsman. In a related move to ease transportation and traffic burdens, the Council is shifting \$294,000 to add five new Traffic Control Officer positions to DDOT. And, in order to delay a scheduled fare increase in FY 2015, \$1.45 million is being redirected to freeze the Circulator bus fare at \$1 for one year.

The District's expectations for reliable passenger rail options continue to increase, especially as the population in the District and region continue to grow and more District residents are choosing not to drive. In anticipation of future needs and sustainable growth, the Council is investing \$500,000 in the development of a **Comprehensive Rail Plan** that will build a strategy to determine how best to move forward with rail-based transit.

To bolster the District's green programs and sustainable policies, the Council is directing an additional \$2.1 million to various environmental initiatives in the District. Of this total, \$1 million will be used to create two new offices: the Office of Electronic Waste Recycling under the **District Department of the Environment** ("DDOE") and the Office of Waste Diversion under DPW. These divisions will help implement the **Waste Management Modernization Amendment Act of 2014**. Additionally, recycling education programs and grants will receive a \$200,000 enhancement in an effort to increase accessibility and improve waste diversion rates throughout the District.

To address environmental health issues, the Council is restoring \$525,000, and associated personnel, to the **Lead and Healthy Housing** program, which was eliminated in the Mayor's proposed FY 2015 budget. DDOE is receiving \$165,000 to implement the **Air Quality Amendment Act**, which will establish a licensing program for the removal and remediation of mold, a critical element in the District's fight against asthma. In a consolidation of programs, and in order to deliver smarter and more effective services, the Department of Health's **Wildlife Rehabilitation** program and associated funding of \$200,000 is being transferred to DDOE to be incorporated into DDOE's established Fisheries and Wildlife program.

This year the Mayor proposed an \$884 million 6-year capital budget for the **H St/Benning/K St Streetcar project** and federal **Streetcars project**. The budget is \$523 million more than what was proposed for FY 2014-2019, and easily dwarfs that of any other project in the capital improvement program. As much as \$740 million of project funding would be diverted from future operating budgets due to the paygo funding mechanism. Over the next 10 years, the funding mechanism proposed for the streetcar and Circulator systems would divert as much as \$3 billion, an average of \$300 million per year, from the operating budget.

While the Council is supportive of the Streetcar initiative, it is also concerned about the amount of funding being diverted from future operating budgets and about DDOT's capacity to effectively manage the project. Given these concerns, it would not be prudent to double the project budget at this time.

The Council's budget would maintain a 6-year, \$400 million investment in Streetcar capital projects (federal and local funds), give priority to the H Street Line, dedicate \$45 to \$65 million of operating funds to the projects annually, and supplement the dedicated funding stream with other paygo or GO/IT bond financing, as needed. This amount of funding is consistent with annual budget allotments that the project has received in recent years and exceeds DDOT's

Economic Development and Regulation

With economic development activities being a key driver of the District's strong growth, the Council is increasing the funds within the Economic Development and Regulation cluster, directing the additional funding to affordable housing, employment, and business development initiatives.

Affordable housing continues to be a top priority for the Council. In support of that priority, the Council is directing an additional \$4.3 million to the **Department of Housing and Community Development** ("DHCD") for the development of affordable senior housing. This amount will also fund a pilot project to study how best to develop affordable housing and wrap-around services for the District's LGBT seniors.

To support housing for low- and moderate-income residents, the Council is adding \$1 million to the **Home Purchase Assistance Program** ("HPAP"), a key tool for improving homeownership in the District. In recognition of the increasing housing costs in the District, the Council is enacting the **Home Purchase Assistance Amendment Act** to increase the per-household maximum down payment assistance provided under HPAP from \$40,000 to \$50,000. To further assist homeless families, and very low income families at risk of becoming homeless, the Council adds \$3 million to the budget for the tenant-based **Local Rent Supplement Program**.

The District currently lacks housing options that very low income individuals and families can afford. As a result, an increasing number of households either enter homelessness for the first time, or find themselves unable to emerge from homelessness with stable and affordable housing. To enhance the production of affordable housing units, the Council provides \$1 million to create a locally funded **Low-Income Housing Tax Credit** ("LIHTC"). Currently, the federal government provides a similar tax credit that, over the past 20 years, has been extremely effective in creating affordable rental housing. The LIHTC provides funding for the development costs associated with building very low-income housing. Many states across the country also provide a state funded LIHTC to further accelerate the production of affordable housing for very low-income residents.

To connect more residents with jobs, the Council funds a full-time Career Pathways Coordinator position within the **Office of the Deputy Mayor for Planning and Economic Development** ("DMPED"). The Coordinator will support the **Workforce Investment Council**; develop a cross-agency plan for connecting basic skills programs to career pathways; set shared,

city-wide priorities; and identify opportunities for alignment and collaboration between the District's education, workforce, and human services providers.

In addition, DMPED is receiving funding of \$150,000 for **Earned Income Tax Credit** ("EITC") education grants. The DC EITC is important tax relief, based on the federal EITC, which is designed specifically for low- and moderate-income workers. Residents who qualify for the EITC will pay less in taxes or even get cash back. The grant will be provided to community organizations that advise EITC-eligible residents on how to apply for the credit.

The Council notes that the Mayor's proposed FY 2015 budget eliminates the dedicated tax for the arts. Because of the importance of substantial public funding for the arts and humanities, the Council is committed to increasing the arts budget over the next year or two to at least \$20 million and expects the Mayor's support for this in next year's budget.

The Council is funding the **Emerging Business District Demonstration Project Act of 2014**, to establish a grant program within DMPED to promote business development. The grants will fund emerging business improvement district (BID) demonstration projects and developing business improvement Districts for up to five years while a business tax base is further established in neighborhoods throughout the city.

The Council is investing in the District's neighborhood retail corridors by adding an additional \$777,000 to expand the Clean Team and Main Streets Programs under the **Department of Small and Local Business Development** ("DSLBD"). These programs ensure that our public spaces are clean, free of waste, and have an overall improved streetscape. This program also employs returning citizens, providing job opportunities for residents transitioning back to the District after a period of incarceration. The expansion of the grant funding in this budget comes with a corresponding expansion of the corridors to be covered, ensuring that more of the District enjoys the benefits of the programs.

Finally, to provide greater transparency in how funds are being used for economic development, the Council is restructuring the operating budget for DMPED. The restructured budget is consistent with how the agency is organized by supervisor and program. Agency program and activity titles are also more descriptive.

Government Direction and Support

In the area of Government Direction and Support, a number of efficiencies were identified that allow the Council to fund initiatives to improve services government-wide. These efforts include expanding and improving upon the government's interactions with the public, investing in human capital by safeguarding public employees' health and wellness, and improving the procurement appeals process.

Savings from efficiencies identified at the Office of Risk Management were sufficient to allow the Council to direct \$120,000 to the **Office on Asian and Pacific Islander Affairs** to

restore lost domestic violence prevention funding. The Council added \$208,000 to the **Commission on Women** to hire a communications assistant and policy analyst and expand its programmatic activities and outreach. In a similar vein, \$195,000 is reallocated from savings at various agencies to fund the **Commission on Fathers, Men, and Boys Establishment Act of 2014**, comprising two staff members and associated equipment and support, to develop recommendations to address problems unique to male residents of the District. An increase of \$59,000 will enable the **Office of African Affairs** to hire a translator to assist French speakers in accessing government services. Pursuant to an existing agreement with the Mayor, the Council is transferring administration of the District's **Emancipation Day** activities, and the associated \$250,000 in funding, to the Office of the Mayor. The Council is also establishing a new paper agency to consolidate the budget for the **District's Statehood Initiatives**, at a funding level of \$226,000. These funds will support the District's outreach and lobbying efforts regarding legislative autonomy, budget autonomy, and the ultimate goal of full statehood for the District.

In recognition of the need to attract and retain a dedicated and talented workforce, the Council is targeting funds for reinvestment in the District's personnel. The Council is expanding from 6 weeks to 8 weeks the Mayor's proposed **Government Family Leave Program Amendment Act of 2014**. This will provide District employees with up to eight weeks of paid maternity or paternity leave upon the birth or adoption of a child. At the intersection of public and employee health, the Council is dedicating funds to implement the **Smoking Restriction Amendment Act of 2013**, which prohibits the use of tobacco products within 25 feet of recreation centers, swimming pools, parks, and various other facilities owned, controlled, or maintained by the District.

In support of the District's ongoing efforts to reform and improve its procurement system, the Council is adding \$300,000 to the **Contract Appeals Board** to hire two new attorneys. The Board serves as the first level of appeal for businesses and organizations bidding on District solicitations. The new staff will help to ensure that the Board can issue its decisions quickly and clearly, benefiting both the District and its vendors, including certified business enterprises.

Public Safety and Justice

In the area of Public Safety and Justice, the proposed budget ensures that the District's public safety agencies have the resources and tools necessary to fulfill their core mission and best serve District residents. The Council provides statutory authorization for the **Metropolitan Police Department** to receive reimbursement for police escort services needed to protect public safety, such as with the transportation of hazardous materials or oversized vehicles throughout the city. This ensures that police resources are not stretched by the need to absorb costs that should be borne by a private entity. In the agency's enforcement of firearms regulations, the Council adopts a delay to the "microstamp-ready" requirement for newly manufactured semiautomatic pistols sold or otherwise transferred in the District. With the recent implementation of a similar requirement in California, the implementation delay in the

Microstamping Implementation Amendment Act will allow MPD to incorporate best practices from that jurisdiction before implementing requirements here in the District.

To ensure that the District's **Fire and Emergency Medical Services Department** remains competitive in the compensation of sworn personnel, the Council funds the pension impact of an arbitration award currently pending Council approval; this enables the collective bargaining agreement for sworn members to move forward. The Council also retains important statutory limitations on overtime earnings for this agency by including the **Fire and Emergency Medical Services Overtime Limitation Amendment Act** for the fifth consecutive year. The Council also identifies funding to pay for the negotiated compensation agreement for attorneys in the **Office of the Attorney General**, ensuring that the District remains competitive in the compensation provided to government lawyers.

The Council also continues the District's commitment to achieve National Association of Medical Examiners accreditation for the **Office of the Chief Medical Examiner**. Specifically, the Council provides for an increased salary to attract a highly qualified Deputy Medical Examiner that can assist with the daily operations of the agency, help with mass fatality preparations, and act in an alternate capacity for the Chief Medical Examiner.

In order to better aid those returning from incarceration to rejoin society, the Council establishes additional funding and personnel at the **Office of Human Rights**—which, among other functions, investigates and resolves employment discrimination complaints—to enable the implementation of the **Fair Criminal Record Screening Act**. That bill is currently being modified in Committee and is expected to be brought before the Council shortly. The Council also identifies funding that is directed to the **Justice Grants Administration** to provide transportation tokens for returning citizens as well as help returning citizens obtain birth certificates.

The Justice Grants Administration (“JGA”) is also receiving an additional \$2 million to expand its grant program aimed at reducing truancy in elementary and middle schools. This is a public safety initiative because of the correlation between truancy and delinquency (although most truants do not become delinquents). The fund is non-lapsing, enabling JGA to use a multi-year approach to the grants. Year-to-date, over 2,500 students have been referred to the JGA program.

The Council also advances a modification to the funding structure for the **Access to Justice Initiative** in order to allow more efficient administration of the two programs under the Initiative that are currently run by the District of Columbia Bar Foundation. More efficient operation of these programs ensures greater access to legal representation for the District's low-income residents and underserved communities. The Council's budget also supports the Mayor's proposed funding of \$4.3 million – an increase over the current year.

General Budget/Balancing Exercises

While balanced in FY 2015, there is a sizable gap between revenues and expenditures in the out-years of the financial plan starting in FY 2016. This gap was caused by two main factors: (1) the use of \$68.8 million in one-time resources to fund programs with an ongoing impact on the budget. And (2) a projected increase in the debt service of \$93.9 million. The Mayor's budget estimates that this \$166 million gap represents approximately 8 percent of non-personal services expenses excluding those associated with Medicaid, schools, retirement, and debt service. In order to monitor the resolution of the potential imbalance in the financial plan, the Budget Support Act includes the **Financial Reporting Act of 2014**. This subtitle mandates that the OCFO report to Council on a quarterly basis the progress made toward resolving the potential FY 2016 gap.

The Mayor's proposed budget identified funding to repeal the subject-to-funding provisions for several laws. The Council is directing resources to fully implement a number of additional laws. This will allow for the execution of the already-approved policies contained therein. The following legislation is fully funded in the Council's budget: the **Earned Sick and Safe Leave Amendment Act of 2013**; the **Minimum Wage Amendment Act of 2013**; the **Electric Company Infrastructure Improvement Financing Act of 2014**; the **Small and Certified Business Enterprise Development and Assistance Amendment Act of 2014**; the **Smoking Restriction Amendment Act of 2013**; the **Traffic Adjudication Amendment Act of 2014**; and the **Wildlife Protection Act of 2010**. The Council is also setting aside funds to fully implement three bills currently pending before the body: the **Air Quality Amendment Act of 2014**, the **Wage Theft Prevention Amendment Act of 2014**, and the **Fair Criminal Record Screening Act of 2014** (popularly known as "Ban the Box" legislation). Not funded is D.C. Law 20-105.

Finally, the Mayor's proposed **Revised Revenue Estimate Contingency Priority List** is struck from the budget advanced by the Council. This list, since it is based on contingent revenue increases, gives an unrealistic expectation that an item on the list will be funded in the coming fiscal year. The Council believes the better avenue for expenditures of increased revenues is through the supplemental budget process, which is how the District has made such determinations for decades. Nevertheless, to meet unmet needs, the Council provides authority to expend up to \$50 million of additional FY 2015 revenues in the BRA, if additional revenues are recognized in the OCFO's June 2014 Revenue Estimate. The Council will collectively determine the priorities that should be funded in a new subtitle at the second reading of the BSA.

OPERATING BUDGET CHARTS

Not including intra-District funds, the Council's FY 2015 gross funds operating budget is \$12,639,830,000, including local funds of \$6,801,898,394. The following charts, compiled by the Office of the Budget Director to the Council, set forth the Mayor's proposed operating and capital budgets and the Committee's modifications thereto, which the Committee hereby recommends for adoption by the Council.

CAPITAL BUDGET CHARTS

The District's proposed capital budget for FY 2015 through FY 2020 calls for financing \$1.37 billion of capital expenditures in FY 2015. The capital program is financed primarily with bonds. It is proposed that \$1.08 billion be borrowed to fund capital projects in FY 2015. District law limits debt service on District bonds to no more than 12% of General Fund expenditures. It is currently projected that by FY 2018, the District will reach its debt service limit and be forced to reduce its borrowing. As a result, the capital budget in FY 2018 is expected to be 45% less than the capital budget in FY 2015.

The following chart, compiled by the Office of the Budget Director to the Council, sets forth the Committee's modifications to the mayor's proposed capital budget, which the Committee hereby recommends for adoption by the Council.

VI. IMPACT ON EXISTING LAW

Bill 20-749 represents the District’s budget request for Fiscal Year 2015, pursuant to section 446 of the Home Rule Act, and does not amend existing District law.

As set forth in the Home Rule Act, Bill 20-749 is effective only insofar as it is adopted by Congress.⁹

⁹ It is the position of the Council that Law 19-321, the Budget Autonomy Act of 2012, was a valid exercise of the District’s authority to amend the District Charter pursuant to the provisions of the Home Rule Act. However, the Council is bound by the May 19, 2014 memorandum opinion and order of the U.S. District Court for the District of Columbia in *Council v. Gray*. In that order, the court enjoined the Council from implementing Law 19-321. The Council will treat the Mayor’s budget request as in past years, pursuant to Judge Sullivan’s ruling. The Council recommends that Congress expressly ratify the District’s action – approved overwhelmingly by District voters – and confirm the District’s authority to spend locally raised and locally kept funds. The Council notes that budget autonomy for the District enjoys broad bipartisan support and ratification of the Local Budget Autonomy Act would grant budget autonomy and preserve Congress’s prerogatives.

VII. FISCAL IMPACT

Bill 20-749 comprises the Council's adoption of the annual budget for the District government and establishes the availability of funding for the continuing operations of the District for Fiscal Year 2015. The bill also sets forth certain authorization requests in Division B which would not go into effect unless enacted by Congress.

VIII. SECTION-BY-SECTION ANALYSIS

DIVISION A - DISTRICT OF COLUMBIA APPROPRIATION REQUEST

<u>Section 1</u>	States the short title of Bill 20-749.
<u>Section 2</u>	Sets forth the expenditure levels and appropriation language for the government of the District for the fiscal year ending September 30, 2015. ¹⁰
<u>Section 101</u>	Would appropriate such sums as may be necessary to make refunds and pay legal settlements or judgments that have been entered against the District.
<u>Section 102</u>	Would authorize the District to use local funds to conduct lobbying activities.
<u>Section 103</u>	Would authorize the District to approve reprogrammings of local funds through November 7, 2015.
<u>Section 104</u>	Would prohibit the use of appropriated funds to provide District officers and employees with official vehicles, with certain exceptions.
<u>Section 105</u>	Sets forth authority and restrictions for the transfer of funds between the operating and capital budgets.
<u>Section 106</u>	Would authorize the District, for fiscal year 2016 and each succeeding fiscal year, to spend local dollars as set forth in that year's budget request act during a lapse in regular appropriations. ¹¹
<u>Section 107</u>	Would authorize the Attorney General to enter into contingency-fee contracts; would provide that in such circumstances, the costs, expenses, and fees need not be included in appropriated amounts.

¹⁰ In some cases, such as the budget for capital projects, spending authority is established for periods extending beyond FY 2015.

¹¹ Congress has already provided similar authority for FY 2014 and FY 2015.

Section 108 Provides that the District shall not be required to include a moveable span in the replacement of the Frederick Douglass Memorial Bridge unless the federal government provides the funding for the moveable span.

Section 109 Provides a technical clarification, defining the term “this Act” for purposes of Title IV of the Budget Request Act.

DIVISION B - DISTRICT OF COLUMBIA AUTHORIZATION REQUEST: BUDGET AND LEGISLATIVE AUTONOMY

Section 201 Would amend section 446 of the Home Rule Act to provide partial budget autonomy for the District.

Section 202 Would amend the Home Rule Act to provide budget and fiscal year autonomy for the District.

Section 203 Would provide for increased legislative autonomy for the District by repealing certain provisions of the Home Rule Act related to congressional action.

DIVISION C - DISTRICT OF COLUMBIA AUTHORIZATION REQUEST OMNIBUS PROVISIONS

Section 301 Would enact into law D.C. Act 17-278, the Contingency Cash Reserve Transparency Amendment Act of 2008.

Section 302 Would provide for the congressional approval of the recent referendum, overwhelmingly approved by voters, to amend the District’s Home Rule Charter to provide for local budget autonomy. A similar provision was included in the Mayor’s budget proposal, and in the proposed budget submitted by the President of the United States. The Council recommends that Congress expressly ratify the District’s action and confirm the District’s authority to spend locally raised and locally kept funds. The Council notes that budget autonomy for the District enjoys broad bipartisan support, and ratification of the Local Budget Autonomy Act would grant budget autonomy and preserve Congress’ prerogatives.

Section 303 Would repeal the triggers for reactivation of the District of Columbia Financial Responsibility and Management Assistance Authority.

Section 304 Would authorize the Attorney General to enter into contingency-fee contracts; would provide that in such circumstances, the costs, expenses, and fees need not be included in appropriated amounts.

<u>Section 305</u>	Would streamline the process for congressional review of District legislation, allowing for District acts to take effect after 30 calendar days of congressional review (in place of the 30-session-day review period currently set forth in the Home Rule Act).
<u>Section 306</u>	Would require the Secretary of Health and Human Services to amend the deed whereby certain property was transferred to the District to eliminate all conditions or restrictions on use of the property.
<u>Section 307</u>	Would clarify the obligations of the District related to urban renewal programs that are no longer active; would terminate certain urban renewal plans for the District; would authorize the District to use funds received under urban renewal plans for any purpose; would authorize the District to dispose of leased real property acquired with the proceeds of urban renewal financial assistance.
<u>Section 308</u>	Would provide for the transfer of certain real property in the District from federal jurisdiction to the District.
<u>Section 309</u>	Would provide for reimbursement to the District Department of Corrections by the United States for costs related to the custody and care of certain felons.
<u>Section 310</u>	Would provide for non-lapsing appropriation of interest accumulated on previously-appropriated federal payments related to the adoption of children and for the establishment of a scholarship fund for District children without parents due to the September 11, 2001 terrorist attack.
<u>Section 311</u>	Would authorize the District to enter into a new Interstate Compact for Juveniles and to delegate power and authority to the Interstate Commission for Juveniles; would repeal the congressional reservation of authority for the right to alter, amend, or repeal the existing interstate compact.
<u>Section 312</u>	Would make a technical amendment to the Home Rule Act to add a definition for the term “Attorney General.”
<u>Section 313</u>	Would make a clarifying amendment to the Home Rule Act to update a citation to the Procurement Practices Act of 1986, which has since been superseded by the Procurement Practices Reform Act of 2010.
<u>Section 314</u>	Would enact into law sections 2, 3, and 4 of the Domestic Partnership Police and Fire Amendment Act of 2008.

<u>Section 315</u>	Would clarify the law on lotteries and similar games by repealing a proviso from the 1982 appropriations act prohibiting the sale or playing of the lotteries, raffles, bingos, or other games on the Federal enclave, and in adjacent public buildings and land controlled by the Shipstead-Luce Act, as well as in the Old Georgetown Historic District.
<u>Section 316</u>	Would subject to sales and use tax certain commercial sales in federal buildings or by federal enterprises and organizations.
<u>Section 317</u>	Would exempt bonds issued by the District from all District, State, and Federal taxation.
<u>Section 318</u>	Would authorize the District to impose an income tax on non-residents whose source of income derive from District locally appropriated funds.
<u>Section 319</u>	Would authorize the District to impose an income tax on non-resident professional athletes.
<u>Section 320</u>	Would authorize and mandate that the District require remote vendors to collect and remit remote sales taxes on sales made via the internet to a purchaser in the District.

Dear Chairman Mendelson:

On behalf of the residents of the District of Columbia, I submit to you the District of Columbia Fiscal Year 2015 Budget and Financial Plan, entitled "Keeping the Promises." Enclosed you will find the "Fiscal Year 2015 Budget Request Act of 2014."

This proposal is the District of Columbia's nineteenth consecutive balanced budget. As you know, the District's economy is experiencing a continuing economic recovery, with more than 34,000 private sector jobs created over the past three years and an unemployment rate that has decreased by three-and-a-half-points -- the lowest unemployment rate we've seen in more than five years. These results have been achieved while still maintaining fiscal responsibility. During the last three years we have insisted on structurally balanced budgets, in which we spent only what we brought in, even when it meant making tough political choices. As a result, we've posted three straight years of budget surpluses and have rebuilt the District's Fund Balance to the highest level in its history -- \$1.75 billion.

To support our growing population and continue building a more prosperous, equitable, safe, sustainable city for all, my proposed budget continues to provide investment to build on our economic successes while at the same time harnessing our increasing prosperity to build a stronger, more inclusive city for everyone. The document also includes hard choices that were required to build a fiscally sound budget and financial plan. Our intention was to strike a balance to maintain government services while meeting our economic goals. In this spirit, we are proposing enhancements that include:

- \$100 million in new funding for affordable housing initiatives between Fiscal Years 2014 and 2015;

- \$116 million in additional funding for public education to tackle the unacceptable achievement gap that persists despite the fact that District students are improving faster than those from any other state in the nation;
- \$300 million for a new East End Medical Center hospital;
- \$409 million for public schools modernization in Fiscal Year 2015; and
- \$475 million for streetcars.

This budget proposal is balanced, structurally sound, and was formulated in a spirit of fiscal discipline. I look forward to the Council's review of this proposal, and to working together to finalize and execute our budget for Fiscal Year 2015.

Sincerely,

Vincent C. Gray

Chairman Phil Mendelson
at the request of the Mayor

GOVERNMENT OF THE DISTRICT OF COLUMBIA
OFFICE OF THE CHIEF FINANCIAL OFFICER

Jeffrey S. DeWitt
Chief Financial Officer

April 3, 2014

The Honorable Vincent C. Gray
Mayor of the District of Columbia
The John A. Wilson Building
1350 Pennsylvania Avenue, N.W., 6th Floor
Washington, DC 20004

Dear Mayor Gray:

I am pleased to transmit the Fiscal Year 2015 Proposed Budget and Financial Plan. The Fiscal Year 2015 Proposed Budget includes \$6.8 billion from Local funds and \$12.6 billion in Gross funds (excluding Intra-District funds).

The Office of the Chief Financial Officer (OCFO) worked closely with your executive leadership team, your Office of Budget and Finance staff, and agency program staff to resolve numerous issues to produce a balanced budget and five-year financial plan. The FY 2015 policy budget reflects your administration's funding priorities and determinations.

After careful review, I certify that the FY 2015 – FY 2018 Budget and Financial Plan, as proposed, are balanced.

REVENUE OUTLOOK

The revenue outlook is predicated on a steadily improving national economy, and assumes that the District's economy will continue to grow, adding both jobs and people over the period of the financial plan.

Some significant measures to reduce federal spending are, however, expected to be in effect during the period of the financial plan, with the severity of their impact diminishing over time. Over the past year, overall employment located in the District has slowed, and commercial office vacancies have risen slightly while rents have weakened. The slowdown in employment growth is due exclusively to cutbacks in the federal government. Private employment prospects are expected to continue to improve in FY 2015 and beyond.

Population growth has been a major factor in increasing the District's income and sales tax bases, and is also a major driving force behind rising home values. In the last five years (2008 to 2013), the District's population has grown by 62,213 (11.4%), an increase that has averaged

more than 1,000 net new residents per month over this time. Natural increase (births minus deaths) now accounts for about one third of the population gain.

The FY 2014 baseline estimate of \$6.33 billion in total Local Fund revenue, excluding Dedicated Taxes and Special Purpose Revenue, is \$131.0 million (2.1%) greater than FY 2013 revenue. The \$6.69 billion estimate for FY 2015 is an increase of \$356.6 million (5.6%) over FY 2014 and reflects a strong rebound in property values that has occurred recently. Including Dedicated General Fund Tax Revenue, Special Purpose Revenue and policy initiatives, total FY 2014 General Fund revenue in the financial plan is \$7.13 billion. Total General Fund revenue in FY 2015 is \$7.49 billion, \$360 million more than FY 2014.

Various policy initiatives decrease General Fund revenue (Local funds and Special Purpose Revenue) FY 2015 by \$23.1 million. Of this amount, \$22.6 million are Local Fund revenues. Some of the major policy proposals for FY 2015 are listed below:

- Reforms of the personal income tax, aimed at providing tax relief to middle-income households, will result in a decline in revenues of \$25 million.
- Alignment of the tax on tobacco products with cigarette taxes adds \$7.0 million to FY 2015 revenue.
- Reduction in the business franchise tax rate to 9.4 percent reduces revenue by \$20 million in FY 2015.
- Single weighted factor for business franchise tax and unincorporated business tax based on sales tax adds \$20 million in FY 2015.
- Senior Citizen Real Property Tax Abatement reduces property taxes by \$8.5 million.
- Office of Tax and Revenue (OTR) tax compliance programs add \$6.1 million to FY 2015 revenue.

Total Changes	\$ 444.5
FY 2015 Proposed Local Funds Budget	\$ 6,794.1

Note: Details may not add to totals due to rounding

Primary Cost Drivers

- DC Public Charter School (DCPCS):** The \$57.6 million increase over FY 2014 is primarily the result of: (1) the change in enrollment from 37,410 to 39,076, or 4.5 percent, over FY 2014 accounts for a \$26.4 million increase in funding; (2) \$12.3 million to account for an inflation factor of 2.0 percent, which was applied to the Uniform Per Student Funding Formula (UPSFF); and (3) an increase of \$18.9 million to support the Adequacy Study.
- DC Public Schools (DCPS):** The \$56.9 million increase over FY 2014 is primarily the result of: (1) the change in enrollment from 46,060 to 47,592, or 3.3 percent, over FY 2014; (2) 2.0 percent applied to the budget to account for inflation in the UPSFF; and (3) additional funding allocated to support the Adequacy Study.
- Repayment of Loans and Interest:** The \$51.4 million increase over FY 2014 is the result of changes in interest rates and increased borrowing.

- **Department of General Services (DGS):** The \$44.5 million increase in Local funds is due primarily to the forecasted expenditures in fixed costs, including rent estimates and facility and security costs.
- **Department of Behavioral Health (DBH):** The \$27.8 million increase over the FY 2014 budget includes \$8.4 million to cover cost-of-living-adjustments, \$3.7 million in agency-managed fixed costs, \$2.8 million to replace federal grant funding, \$5.5 million for independent community residential facilities (ICRFs), and \$5.0 million for funds shifting from capital to operating.
- **Washington Metropolitan Area Transit Authority (WMATA):** The \$18.3 million increase over the FY 2014 budget includes an increase to the annual subsidy; expansion of DC Circulator services; a shift of funds from the District's Department of Transportation to support Metrobus and Metrorail services; and enhanced funding for the Kids Ride Free initiative.
- **Office of the State Superintendent of Education (OSSE):** The \$16.6 million increase over the FY 2014 budget includes a \$4.3 million shift of Healthy Schools Fund dedicated taxes to Local funds; \$3.0 million to address a shortfall in the Early Childhood Education program; and a \$4.2 million increase to support the Quality Rating and Improvement system and the Infant and Toddler Infrastructure.
- **Department of Human Services (DHS):** \$10.8 million is added to housing support services to include \$1.0 million for the Emergency Rental Assistance program; \$1.0 million for rapid re-housing; and \$4.7 million for homeless veterans. Additionally, DHS received \$1.0 million to support the Truancy Program; \$722,000 to address an inflationary increase to TANF recipients; and \$3.1 million for increased fixed costs.
- **Department of Public Works (DPW):** The \$10.1 million increase over the FY 2014 budget includes \$1.7 million increase to address a recurring shortfall in fringe benefits; \$1.5 million for the restoration of one-time salary lapse savings; \$5.4 million related to cost-of-living-adjustments; and \$1.7 million to support longevity pay.
- **All Other Agencies:** The \$150.5 million increase over the FY 2014 budget is primarily the result of various policy enhancements, technical adjustments, inflationary increases, and cost-of-living adjustments.

ITEMS TO MONITOR

The OCFO will continue to work with your Office of Budget and Finance to monitor spending to ensure that the District ends each fiscal year in balance. Unlike past years, there are no items to monitor in the FY 2015 Proposed budget; however, below are financial plan items for FY 2016 and beyond that will require monitoring:

- Revenue growth from FY 2015 to FY 2016 is estimated to be \$206 million. The FY 2015 budget includes \$104 million of revenue carried over from FY 2014, which is not recurring. Accounting for other small adjustments, resources grow by a net total of only \$105 million in FY 2016.
- The provision requiring 25 percent of new revenues to be devoted to PAYGO capital begins in FY 2016. This will mean an additional \$51 million of PAYGO capital spending.
- In FY 2015, debt service is supplemented by a one-time payment of \$25.2 from Special Purpose Revenue, relieving Local funds of this expenditure. In FY 2016, the primary debt service agency will increase by \$63.2 million in gross funds. Thus, Local funds debt service will grow by \$87.9 million in FY 2016.

The financial plan is balanced with an equivalent 8 percent reduction in FY 2016 to a large portion of nonpersonal services expenditures. Procurement reform and other initiatives will have to be successfully implemented and carefully monitored in order to achieve the requisite performance savings.

CAPITAL IMPROVEMENTS PLAN

The District is addressing its continuing infrastructure needs through its Capital Improvements Plan (CIP). The District, however, is constrained in its levels of General Obligation (G.O. bond) and Income Tax secured (I.T. bond) bonds issuances due to its 12 percent debt cap. These factors place a premium on developing a sound CIP to make the best use of limited resources. The total proposed appropriation request for the FY 2015 through FY 2020 CIP is \$2.172 billion for all sources, which consists of \$2.966 billion of new budget authority partly offset by \$794 million of rescissions. The increased budget authority will be financed with I.T. or G.O. bonds, Grant Anticipation Revenue Vehicle (GARVEE) bonds, Revenue bonds, PAYGO transfers from the General Fund, the Master Equipment Lease Program, Federal Grants, a local match to the grants from the Federal Highway Administration, private donations, sale of assets, and local transportation fund revenue.

The proposed FY 2015 capital program includes \$1,375.3 million in planned capital expenditures to be financed by \$1,077.8 million in new I.T. or G.O. bond issuances, \$26.0 million from the Master Equipment Lease Program, \$19.0 million in PAYGO, \$186.9 million in federal grants, \$37.7 million in the local match to the Federal Highway Administration grants, \$21.4 million from the Local Transportation Revenue Fund, and \$6.5 million from the Sale of Assets. Debt service within the budget and financial plan period remains below the 12 percent debt cap.

The leadership provided by you and the District Council, along with the hard work of the Office of Budget and Planning and others in the OCFO, allowed us to work effectively together to produce a balanced budget. I look forward to continuing to work with you and the Council during the upcoming budget deliberations.

Sincerely,
